## Welcome Address from Chairman of Organizing Committee

Honorable Rector of Ahmad Dahlan University,  
Dean Faculty of Pharmacy of Ahmad Dahlan University,  
Honorable Plenary Speakers  
Dear Colleague,  
Distinguished Participants,  
Ladies and Gentlemen

Assalamu'alaikum warahmatullahi wabarakatuh,

Good morning,

First of all, let us give thanks to Allah, the Almighty God, who has allowed us to attend this conference. Secondly, I would like to welcome everyone to Yogyakarta.

Preparation and reconstitution of drug products are an essential function of hospital pharmacy. The hospital pharmacist should also take notice for central intravenous additive service including cytotoxic reconstitution services. Thus, handling cytostatic in hospital is also crucial in hospital practises. In other words, Cytotoxic Handling should to provide protection to patients, the operator and environment.

Ladies and gentlemen,

To celebrate the 17<sup>th</sup> anniversary faculty of Pharmacy Ahmad Dahlan University, Yogyakarta, in collaboarting with Bethesda Hospital, Yogyakarta, Indonesia hosted The International Conference on Safety Management of Central Cytotoxic Reconstitution in Pharmacy Practice". The conference is held on 25 May, 2013 at The Grand Tjokro Hotel, Yogyakarta, Indonesia. The conference facilitated some of professional that come from world wide such as academia, researchers, hospital pharmacists, policy maker, and health care professionals. The second agenda is Workshop on Basic Cytotoxic Handling for hospital pharmacists and academia. It will hold on 26-27 May, 2013 in Pharmacy Department, Bethesda Hospital.

I do hope this conference will give a new initiative for practicing sorounding cytotoxic handling and team-work. I thank to conference sponsors and committee members for their support.

Wassalamu'alaikum warahmatullahi wabarakatuh,

Yogyakarta, 25 May 2013

Chairperson of the organizing committee

## **Welcome Address from Dean of Faculty of Pharmacy, Ahmad Dahlan University**

Assalamu'alaikum Wr. Wb.

Dear all participants,

Welcome to the International Conference and Workshop on Safety Management of Central Cytotoxic Reconstitution in Pharmacy Practice. Thank you for participating in this great event. Hopefully, you can enjoy the days of International Conference and Workshop.

The topic of this international seminar is very interesting and important for the development of pharmacists' skills in drug reconstitution, since we know that our new perspective of pharmacy practice is patients' care and patients' safety. Dealing with cytotoxic drug is a kind of collaboration among physician, pharmacist, nurse, psychologist, patient and patient's family. However, as the pharmacists, we have unique skills and knowledge related to the preparation, administration and monitoring of cytotoxic drug administration. Therefore, in a team work, pharmacist has some responsibilities as a leader related to the cytotoxic drug reconstitution.

This international conference and workshop are the collaboration between Faculty of Pharmacy, University of Ahmad Dahlan Yogyakarta as academic institution with the Bethesda Hospital of Yogyakarta as one of the central cytotoxic reconstitution. We also invited Prof A.A. Kaptein, from Leiden University Medical Center, Leiden, The Netherlands and Harbans Kaur Dhillon from University Malaya, Medical Centre, Malaysia as speakers, besides Dra. L. Endang Budiarti, M.Pharm., Apt. as practitioners in Bethesda Hospital of Yogyakarta and Dr. Dyah Aryani Perwitasari, Apt., PhD who wants to share about development of pharmacist's skill in medical reconciliation. After the one day seminar, we invite you to joint with us on the workshop of Central Cytotoxic Reconstitution which will be held in Bethesda Hospital of Yogyakarta. This workshop is useful for us, especially when we want to start the Central Cytotoxic Reconstitution in our hospital.

I hope, The International Conference and Workshop on Safety management of Central Cytotoxic Reconstitution in Pharmacy Practice will inspire us to practice our skills and knowledge in our fields. In the future, we can reach one the goal of pharmacy practice, which is patients' safety.

Have a great conference.

Wassalamu'alaikum wr wb
